

# Elekta

## Elekta ONE

Your home for smart, personalized cancer care

# New! Elekta One

## Designed to do more

Stand-alone, closed systems, each with a different purpose, user experience and learning curve add pressure to an already strained resource—you.

To keep doing it all—and doing it right—you need to get the right tools and information, for the right patient, at the right time.

Elekta ONE provides a unified software experience designed to help you keep pace with fast changing technology—and do more for your patients.

# Elekta ONE

A unified software experience designed to help you keep pace with fast changing technology—and do more for your patients.

## **Focus on care**

Your time is valuable, and we believe it should be spent where it matters most: with the patient.

## **Adapt treatment strategies**

Building on proven solutions and bringing in cutting-edge innovation to make treatment personalization simpler than ever.

## **Invest in change**

Cancer care is complex and constantly evolving. We design future proof solutions that allow you to stay ahead of the curve.
